STORMWATER OUTFALL DETAILS
BY LOVING ENGINEERING & CONSULTING, P.S. INC.
DATED 11-30-15**

Dear Ms. Loving,

EnviroSound Consulting, Inc. (EnviroSound) prepared this letter at your request after review of the referenced drawing.

The overall design of the proposed expansion of the existing retention pond appears to be in general conformance with recommendations in our slope assessment report dated June 29, 2015. We would recommend that EnviroSound have the opportunity to review any revisions of the design.

We have prepared this letter based on standard practices, currently used in this area at the time of preparation. The information presented in this letter was collected and interpreted in a manner consistent with the level of care and skill ordinarily exercised by members of the profession currently practicing under similar conditions. Should you have any questions or concerns, which have not been addressed, or if we may be of additional assistance, please call our office at (360) 698-5950.

Sincerely,

Shawn E. Williams, L.E.G.
Senior Engineering Geologist
